Professional Summary

Computer Engineer with 6+ years of experience specialized in building reliable, scalable, and business-oriented digital products with JavaScript/TypeScript, Python, and modern architectures. Expert in architecting AI-assisted workflows and integrating LLMs into enterprise environments. Committed to writing clean, maintainable code and optimizing system performance for high-demand transactional environments.

Technical Skills

Languages & Frameworks: JavaScript (ES6+), TypeScript, Node.js, Python, React, React Native, Next.js, HTML5, CSS3

Backend & APIs: Express, Fastify, Microservices Architecture, REST, SOAP, GraphQL (basics)

Applied AI: LLM Integrations (OpenAI/Anthropic), Prompt Engineering, Workflow Automation, AI-assisted Development

Data & Infrastructure: PostgreSQL, MongoDB, Docker, CI/CD, NGINX, Redis

Build Tools: Vite, Webpack, npm/yarn/pnpm

Collaboration & Tools: Git, GitHub, Jira, Agile Methodologies, Remote Team Leadership

Professional Experience

Fullstack Developer (AI & Core Systems) | Entropy | Barcelona, Spain (Remote)

April 2024 - Present

- **Led design and implementation** of AI-assisted workflows with a focus on reliability and traceability
- **Developed internal tools** to improve operational efficiency and reduce repetitive manual tasks
- **Integrated intelligent interfaces** with low-latency backend services for critical use cases
- **Contributed to architecture decisions** to evolve the tech stack without sacrificing stability
- **Collaborated with cross-functional teams** to align AI initiatives with business objectives

Fullstack Developer (Semi Senior) | Interfell - ePayco | Remote

June 2021 - April 2024

- **Built and maintained financial microservices** supporting high-demand transactional flows
- **Developed React Native modules and integrations** for mobile payment SDKs, ensuring cross-platform compatibility
- **Optimized payment engines** and orchestrated integrations across REST and SOAP ecosystems
- **Implemented code-quality controls** and established robust technical review practices
- **Leveraged containerized environments** (Docker) to speed up deployments and minimize incidents
- **Improved system reliability** by implementing automated testing and monitoring strategies

Systems Analyst | Intelix Synergy, C.A. | Valencia, Venezuela

March 2020 - June 2021

- **Developed enterprise solutions** for digital transformation initiatives and internal business systems
- **Implemented modular architectures** to improve software maintainability and scalability
- **Supported technical planning** and delivery tracking for key milestones and project goals
- **Produced structured technical documentation** for project continuity and support readiness
- **Operated and deployed services** on Linux environments with NGINX reverse proxies

Education

Bachelor of Science in Computer Engineering

Universidad Jose Antonio Paez | Valencia, Venezuela

2017 - 2020

Additional Information

Languages: Spanish (Native), English (Professional)

Interests: AI Ethics, System Design, Web Performance, Developer Experience
